Easy_EnglishPassage_1001
Power of Education

Words: 784, Characters: 4649 **LEVEL: EASY**

Education is the most powerful tool which can change the life of any person and also the future of any country it not only gives knowledge but also teaches discipline values and skills which are required to live a good life every child should get the opportunity of education because it opens the doors of success and development without education society cannot progress and people remain limited to small opportunities education develops confidence and helps people to make the right decisions in their personal and professional life it also reduces social problems like poverty crime and unemployment because an educated person can understand his responsibility and work hard to improve his life and the life of his family in the present time every field whether it is science technology business health or art needs educated and skilled people that is why parents and teachers always tell us to study well and focus on learning books are our best friends and they give us knowledge which stays with us forever education is not only limited to schools or colleges it is a continuous process and we keep learning from every experience of life today digital education and online learning have become very popular because technology has made it possible to study from anywhere at any time this is very useful for students who want to gain extra knowledge apart from their regular classes education also teaches us moral values like honesty kindness respect and responsibility these values are very important for building a strong and peaceful society a country where every citizen is educated can achieve growth faster because people will be able to contribute in different sectors in a positive way education also empowers women and gives them equal rights to participate in every field when women are educated they can support their family teach their children and work for the betterment of society it is rightly said that if you educate a man you educate one person but if you educate a woman you educate the whole family so the importance of education can never be ignored in simple words education is like a light which removes the darkness of ignorance and shows the path of progress and success every student should set a goal to achieve good education and use the knowledge for the welfare of society and the nation Education is the most powerful tool which can change the life of any person and also the future of any country it not only gives knowledge but also teaches discipline values and skills which are required to live a good life every child should get the opportunity of education because it opens the doors of success and development without education society cannot progress and people remain limited to small opportunities education develops confidence and helps people to make the right

decisions in their personal and professional life it also reduces social problems like poverty crime and unemployment because an educated person can understand his responsibility and work hard to improve his life and the life of his family in the present time every field whether it is science technology business health or art needs educated and skilled people that is why parents and teachers always tell us to study well and focus on learning books are our best friends and they give us knowledge which stays with us forever education is not only limited to schools or colleges it is a continuous process and we keep learning from every experience of life today digital education and online learning have become very popular because technology has made it possible to study from anywhere at any time this is very useful for students who want to gain extra knowledge apart from their regular classes education also teaches us moral values like honesty kindness respect and responsibility these values are very important for building a strong and peaceful society a country where every citizen is educated can achieve growth faster because people will be able to contribute in different sectors in a positive way education also empowers women and gives them equal rights to participate in every field when women are educated they can support their family teach their children and work for the betterment of society it is rightly said that if you educate a man you educate one person but if you educate a woman you educate the whole family so the importance of education can never be ignored in simple words education is like a light which removes the darkness of ignorance and shows the path of progress and success every student should set a goal to achieve good education and use the knowledge for the welfare of society and the nation
